

Dominique Augsburger

Chief Operations Officer (COO)

Dominique is a seasoned financial and operational professional with more than 15 years of experience in using creative vision and excellent insight into company management.

As Chief Operations Officer, she is responsible for designing and implementing plans, strategies, and procedures, setting comprehensive goals for growth, diversification, and performance, overseeing the daily operations of the Group.

Prior to joining CSI Energy Group in 2022, she previously held financial / operational roles in various companies including Stryker, Congo Equipment (CAT) and Médecins Sans Frontières (MSF). Throughout her career, she has developed significant operational management experience in multinationals organisations operating in both Europe and Africa.

Dominique holds an MSc in Economics from HEC Lausanne (Switzerland), and a certification in blockchain technology and decentralised finance from University of Geneva. She is also a certified Master in Neuro Linguistic Programming.

A supporter of women empowerment, Dominique is the co-founder of WOWanted, an initiative dedicated to supporting female entrepreneurs in the Indian Ocean. She is passionate about sustainability, creating growth and is dedicated to increase gender equity in the energy sector.
